

The HILTI logo is displayed in white text on a red rectangular background. The background of the entire image is a close-up of several black HILTI batteries, some with red markings like '22' and '18'.

NURON RECOMMENDATION CHART 2026

Battery & Charger

Choose right to improve productivity

CHOOSE THE RIGHT NURON BATTERY FOR YOUR JOB

Compact B 22-55

Compact and lightweight battery for light-duty tasks using Nuron tools.

Compact B 22-85

Versatile battery with good balance of weight, power, and runtime for light and medium-duty tasks using Nuron tools.

Universal B 22-195

High-capacity battery built to boost the performance and runtime of medium to heavy-duty Nuron tools.

Heavy Duty B 22-290

Our highest-capacity battery, built to maximize the runtime of heavy-duty Nuron tools.

Heavy Duty B 22-260

Our fastest-charging battery optimized for high-intensity work with heavy-duty Nuron tools.

Cordless without compromise

All-in-one cordless battery platform: Experience more power, flexibility, and boosted jobsite productivity with the 22V Nuron platform.

Ultimate performance: Perform your corded and gas-powered applications with convenience.

A battery for every job

Power through your projects: Conquer your tasks with batteries tailored to provide optimal power and runtime for your specific needs.

Simple tool crib management*

Stay prepared and productive with Hilti Fleet Management: The Nuron platform moves data from your tools and batteries to the cloud to help anticipate your needs and keep your projects on track.

Enhance jobsite efficiency: Optimize your tool crib and operations with location and usage data from Nuron. One battery platform leading to optimized toolpark.

* "ON!Track Ready" software to consume the data and insights from the Nuron tools

- While ALL NURON batteries are compatible with ALL NURON tools, Hilti recommends specific batteries for each tool because they offer the best balance of performance, runtime and weight.*
- Tool, battery, and application determine the best battery and charger combination.

- C 6, C 8 and Flash chargers include fans that help cool batteries for faster charging.

* Some measuring tools do not provide enough space to fit all batteries. These tools have enough runtime for most applications using the compact batteries.

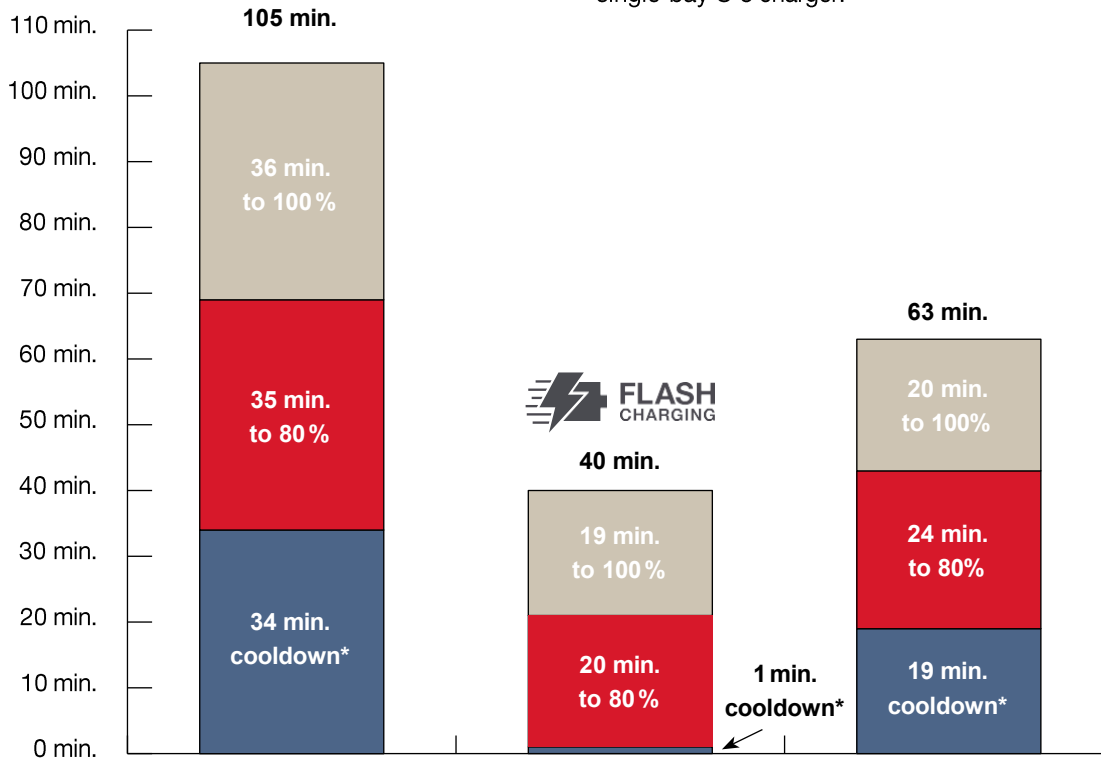

CHOOSE THE RIGHT NURON CHARGER

Cut downtime by up to 70% with Flash charging

Doing serial applications?

Need speed for serial applications?

Combine a flash charging **B 22-260** battery with our **C 8D/DC-22 Dual Bay Flash charger** and get back to work in about 21 minutes when you use Boost Mode. That's up to **70% faster** than charging a B 22-255 on a single-bay C 8 charger.

C 4-22 charger

Compact charger for light-duty applications where charging speed is not critical.

C 6-22 charger

Medium-speed charger for applications where charging speed is important but not critical.

C 8-22 charger

High-speed charger optimized for high-capacity Nuron batteries.

C 8D/DC-22 Dual Bay Flash charger

Our fastest **Dual Bay Flash charger** – charges two Nuron batteries in parallel as fast as the C 8-22 Nuron charger. **Boost Mode** – charges one heavy-duty Nuron battery to 80% up to twice as fast.

- *Batteries need to cooldown after medium and high intensity applications before they can start charging.
- C 6 and C 8 class chargers with active cooling speed up the charging process.
- C 8D/DC-22 (Boost mode) + B 22-260 enable Flash Charging, the fastest charging speed after application comparing to other Hilti chargers.

CHANGING TIMES AT AMBIENT CONDITIONS

		80% charge Full charge		C8 DC-22		C 8-22	C 6-22	C 4-22
		1 battery Boost mode	2 batteries Simultaneously					
25 °C (77 °F)		Ambient temperature						
Heavy duty	B 22-260 <small>FLASH CHARGING</small>	19 min 39 min	36 min 56 min	36 min 56 min	53 min 73 min	165 min 215 min		
	B 22-290	21 min 41 min	40 min 62 min	40 min 62 min	63 min 98 min	180 min 234 min		
Universal	B 22-195		24 min 48 min	24 min 48 min	45 min 70 min	127 min 158 min		
Compact	B 22-85		30 min 60 min	30 min 60 min	30 min 60 min	52 min 85 min		
	B 22-55		30 min 53 min	30 min 53 min	30 min 53 min	34 min 59 min		

NOTE: Charging times were measured under controlled environment at 25 °C (77 °F), results may vary.
