

List Price Adjustment

1st September 2026

Dear Valued Customer,

We hope this message finds you well.

On behalf of everyone at Hilti India, I would like to extend our sincere gratitude for your continued trust and partnership. We greatly value the confidence you place in us, and your support has been fundamental to our shared success and long-standing relationship.

As you are aware, the construction sector continues to be a key driver of India's economic growth. However, like many industries, we continue to face increasing cost pressures driven by inflation, and rising prices of essential raw materials.

These challenges have been further amplified by increasing oil prices, which have significantly impacted transportation and logistics expenses across the industry. Furthermore, ongoing global economic uncertainty has contributed to the continued depreciation of the Indian Rupee against major currencies such as the US Dollar and Swiss Franc.

In light of these factors, we will be implementing a price adjustment effective **October 1, 2026**. We will implement an average price increase of **7%** across all product categories. This adjustment is necessary to help us continue delivering the high standards of quality, innovation, and service that you expect from Hilti.

We understand that pricing changes can impact your planning and operations. Therefore, we are providing this advance notice to help you manage your budgets and project forecasts accordingly.

At Hilti, our commitment remains unwavering: to deliver industry-leading, productive, safe, and sustainable solutions that empower your business and contribute to building a better future together.

Should you have any questions or require further information, please do not hesitate to reach out to our Customer Service team at customercare@hilti.com.

Thank you once again for your continued support and partnership.

Yours faithfully,
Jayant Kumar
